**METAL OR PLASTIC ICE MAKER BOX INSTALLATION**

INSTALLATION:

[www.pppinc.net](http://www.pppinc.net)

- 1) Position box between studs to desired height.
- 2) Secure box to a backing board or to the front of studs. The front of the box should be flush with wall material.
- 3) Connect the cold water supply to the valve.
- 4) Install face plate by pushing plate into box until plate is flush against the wall material.

**USE CAUTION WHEN APPLYING HEAT NEAR THE PLASTIC BOX.**
