“Specify with Confidence - Install with Pride”

METAL LAUNDRY BOX WITH WATER HAMMER ARRESTORS

www.pppinc.net

Precision Plumbing Products has designed a plastic Laundry box assembly that makes your application simple and cost effective. Solenoid operated laundry equipment can create destructive water hammer due to quick closing valves on the fill cycle. Water hammer can damage or even break your hose connections as well as destroy the solenoid valve. To avoid this common household problem hook your washing machine hose connectors to the quarter turn ball valve in our laundry box assembly with water hammer arrestors and rest easy.

Features:

- Available in Metal, Plastic and Fire Rated Box Options
- Simple Installation
- Cost Effective

Boxes are supplied with water hammer arrestors and quarter turn valves. Boxes include necessary mounting brackets and faceplate. Metal boxes include a 2” rubber drain pipe coupling and are constructed of 20 gauge steel with a white powder coat. (Note: Box dimensions may vary slightly from drawings).
