**FLOOR DRAIN TRAP PRIMER  
 FRESH WATER DISTRIBUTION SYSTEMS**

**DISTRIBUTION UNITS**

**DU-U is a PVC body distribution unit with 4 - 3/8" FPT discharge fittings and 1/2" male NPT composite inlet. Now available with PTC Fittings.**

**DU-4 is a copper body distribution unit with 4 - 3/8" FPT brass discharge fittings and 1/2" male NPT composite inlet. All distribution units come with two plugs.**

DU-4  
 DU-4-500  
 DU-4-625  
 DU-4-625PTC

DU-U  
 DU-U-500  
 DU-U-625  
 DU-U-625PTC

**Just the facts:** The Trap Priming Distribution Systems are patented designs that incorporate both copper and PVC materials. These designs give the installer a simple and positive means to prime multiple floor drains using only one Precision Plumbing Trap Priming Valve. It is our recommendation that the distribution unit be mounted level. The fresh water supply line, running from the distribution unit to the trap, must be a minimum of 1/2" OD. copper tube. Now with PTC (Push to Connect) fitting option.

For installation dimension see table below.
