Re: Price Increase

To Our Valued Precision Plumbing Products Customers,

Due to ongoing increases in raw material, transportation, tariff, and labor costs, Precision Plumbing Products will implement a price adjustment effective October 1, 2026.

Overall list pricing is expected to increase by approximately 5%, with manifold product lines increasing by approximately 7%.

Please note the following key details regarding this change:

- Price Protection: All orders placed prior to October 1, 2026, will be honored at current pricing.
- This adjustment addresses and aligns list pricing across our manifold product lines.
- Import Tariff Integration: SKUs containing imported components will now incorporate updated tariff costs directly into their pricing.

An updated price guide will soon be available for download on our website at www.PPPinc.net.

We greatly appreciate your continued partnership and understanding. Should you have any questions or require further clarification, please do not hesitate to contact me directly.

Sincerely,

Brandon Gunnell

VP
